Dear students,

The Humboldt-Universität zu Berlin and Universidad de La Habana are enlightened to host the 19th edition of the International Summer School in Economics and Management in Havana.

The ISSEM 2022 offers you a wide selection of study courses in different areas of economics and business, such as: Development Economics, Political Economy, Econometrics, Design Thinking and Entrepreneurship.

International students have the opportunity to work on frequently discussed topics that are relevant in this international context. Courses, exclusively taught in English, account for both undergraduate and graduate level. Students will receive ECTS points for successfully completed courses.

In addition to the academic program, you can experience numerous intercultural exchanges with Cuban students. On weekends and after classes, we invite you to attend organized cultural events and activities, such as a Cuban movie night, concerts, sport competitions and excursions. The summer school is free of any participation fee. Students should anticipate the costs for flight, accommodation, visa and social activities.

Feel free to explore one of the most amazing countries on this planet on your own during your spare time.

Apply now! We hope to see you in Havana.
